CHRISTIAN SURFERS AFRICA LEADERSHIP TRAINING

At some point in your life I'm sure you've probably dreamed about taking an extended surf trip, about searching for perfect waves, and getting lost along the way. Maybe for a couple of months, maybe for a year, maybe for longer but with a purpose in mind. Our Leadership Program has been designed specifically to let you explore your passions, whether that's surfing or skating, but at the same time draw you closer to God and find out his plans for your life.

SURF > SERVE

Come to Jeffreys Bay and be a part of what's happening within Christian Surfers!

We're serious in our mission to be a Christian witness and presence to the boardriding communities of the world, and we'd love for you to join us so that you too can be a part of what God is doing through surfers and skaters everywhere.

THE PROGRAM

The Christian Surfers Leadership Program is a 5 month or 1 year course that's been designed to equip people with the necessary skills for surf ministry and life. The program consists of a 3 month training phase, followed by 2 months of hands-on mission experience. The Year program consists of the same 3 month training phase, followed by 2 months of hands-on mission. (5 months) and then a further five months of internship working within the CS mission

The program is an initiative of Christian Surfers South Africa and falls under the leadership of the Christian Surfers South Africa team. The training is based in Jeffreys Bay, and outreach will happen around South Africa (with potential for short-term missions in other countries).

We aim to identify the skills and passions of the individual, and then equip them for further involvement in surf missions. The program exposes participants to a broad range of mission strategies, as well as laying personal foundations for spiritual growth. The course is run by surfers and skaters, for surfers and skaters. We take our calling seriously, but at the same time we want to enjoy ourselves and have fun.

As much as possible we try to be flexible with the delivery of the program, so if the waves are 6 foot and cooking lectures might happen later in the day...

During the three months of training we cover topics such as:

- How to run a surf club/contest
- Using surfing to assist work in under-privileged communities,
- Financial and environmental stewardship
- Discipleship and Leadership courses
- General surfing knowledge
- Using media as a tool to raise awareness and much more.

LEAD > LEARN

The missions phase is based around a practical outworking of what you've learnt. You'll spend time travelling around South Africa, assisting with different Christian Surfers projects as well as running special outreach events. You'll see people working in different situations, from rural Africa, to a surf school in Cape Town, but most importantly you'll be exposing surfers and skaters to the gospel message.

I had only been a Christian for 2 years and I was stoked to hear that they were running a Leadership program, in Jbay of all places! I decided that I would do the program as soon as I finished school. I, together with Anien, were the first girls (or guinea-pigs) to do the program and it was amazing. My year taught me so much about growing in relationship with God, living in community and also gave me practical training that would help me in all areas of my life. All in all it gave me a great foundation in my walk with Jesus and I loved it so much that I went through the process of volunteering and continuing on staff for the following 2 years.

Before I did the program I already surfed, and I was a Christian, but I'd never put the two together to do any kind of surf ministry. Doing the program, and hanging out with people who had so much experience with Christian Surfers really influenced me a lot. I know that when I return home I'm going to have a lot more involvement in my local surf community. I found that the program had a great balance of teaching, practical work, and also spare time when I could go and surf.
